

## Breathe Natural Sterile Air

Disinfecting the indoor air becomes inevitable nowadays due to challenging airborne viruses threat and microbial load present in the air.

Room Air Purifier, an innovative creation of Faraday Ozone which doses activated oxygen on periodic intervals to maintain good air quality throughout the day and eliminates any kind of bacteria, viruses, germs, airborne pathogens and other contaminants present in the air through activated oxygen. It breaks the shell walls of the viruses and make it ineffective through ozone disinfection.

### Benefits :

- Eradicates all kinds of bacteria, viruses and other micro organisms in the air
- Eliminates odour through a natural purifying process
- Removes allergy causing pollens, microbes, moulds and mildews
- The process of purification is completely natural and chemical free
- No maintenance required (no filter to clean)
